DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1, 2, 6, 19, 22, 23, 36, 37, 57, 58, 62, and 75 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement.

The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Examiner asserts that there is no support for the term “violating pattern” as recited in claims 3, 4, 19, 22, 36, 37, 57, and 58. Examiner notes that, in the instant specification, Applicant refers to certain recognizer patterns being larger or smaller than other recognizer patterns, but no distinct definition of “violating pattern” could be readily discerned.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1, 2, 6, 36, 37, 57, 58, 62, and 75 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Examiner asserts that the phrase "...a number of the violating pattern used..." as found in independent claims 1, 2, 36, 37, 57, and 58 is vague and indefinite. Examiner is not sure what number Applicant is referring to and asserts that no clarifying description can be readily found in the instant specification.

Allowable Subject Matter

5. Claims 3, 4, 38, 39, 59, and 60 are allowed over the prior art of record for the reasons discussed in the previous Office Action, mailed on 6/16/2008.

6. All of Limitations recited in claims 1, 2, 6, 36, 37, 57, 58, 62, and 75 have been searched, but no arts are applied to these claims which include a new matter therein at this time.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 2627

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
